(b) Personal property owned by a person who is a resident of this state shall be assessed at the place where the owner is a “resident”. If personal property is regularly used, permanently located or held on the assessment date at a location in the state other than where the owner is a “resident”, the assessment shall be made in such location. ~~If “mobile vehicles” are regularly used or, permanently~~ **regularly located in Indiana such that they have a substantial nexus with this state or but that are at a location outside of the state held on the assessment date at a location out of the state, the assessment shall be assessed where they are regularly used or located. made where the owner is a “resident”.**

(c) The request must be made to the assessor with whom the return should be filed. The request must clearly state the reason for the extension. The assessor may, at the assessor’s discretion, approve the request and shall notify the taxpayer in writing if approved. (e) Every person required to file a personal property tax return pursuant to section 2 of this rule must report all personal property as defined in 50 IAC 4.3-1-1(11), on the authorized ~~form(s)~~ **form**. The return forms as listed in subsections (b) and (d) do not constitute a return unless signed under the penalties of perjury by a person authorized to file such return.

(f) Prescribed Forms 102, 103, 103-I, 103-N, 103-O, 103-P, ~~103-R~~, 103-T, 103-W, and 106, together with any schedules or other information attached thereto, are confidential and ~~should~~ **shall** not be disclosed to any person unless specifically authorized by law. For further information on confidentiality see IC 6-1.1-35-9.

(g) Personal property is a self-assessment method of taxation requiring the taxpayer to complete the assessment return in accordance with the rules prescribed by the state board.

(h) The township assessor's responsibility is defined in IC 6-1.1-3-6, IC 6-1.1-3-7, and IC 6-1.1-3-14. This language clearly demonstrates that personal property returns are required to be self-assessment returns prepared and signed by the taxpayer (authorized person) "under the penalties of perjury" that it "is a true, correct and complete" return and that it is prepared in accordance with IC 6-1.1 et seq. as amended, and rules promulgated with respect thereto.

(i) The taxpayer is responsible for the accuracy of the information on the return and for assuring that it is a complete return that has been prepared in accordance with the law and rules of the state board.

(j) The township assessor should provide whatever assistance is reasonable and necessary to ensure that the taxpayer may file a correct tax return. This would include:

- (1) furnishing copies of assessment return forms;
- (2) providing copies of this article and amendments;
- (3) providing copies of rules and ~~for~~ instructional bulletins applicable to that business (for example, 50 IAC 4.3-

15-7, for petroleum prices prescribed); and

(4) answering any questions on how to properly file an assessment return.

If a taxpayer requests assistance in the preparation of a return because the taxpayer does not understand how to complete the form, the official should explain each step to the taxpayer. In no instance should the official fill out the return for the taxpayer. The taxpayer should complete and be responsible for all information on the return. The taxpayer must sign and date the return in all cases. (*State Board of Tax Commissioners; 50 IAC 4.3-2-7*)

50 IAC 4.3-2-8 Penalties

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3-7; IC 6-1.1-3-9; IC 6-1.1-5-13; IC 6-1.1-15-5; IC 6-1.1-37-7

Sec. 8. (a) Any person who willfully makes and subscribes any return, statement or other document that is verified under oath, which is certified as to the truth of the information occurring thereon or which contains a written declaration that is made under the penalties of perjury and which they do not believe to be true and correct in every material respect shall be guilty of a crime and shall be subject to the same penalties as provided by law for perjury.

(b) **The incomplete return penalty as is defined in IC 6-1.1-37-7(d). The purpose of this penalty is to require a full disclosure of the information related to the value, nature, or location of personal property on the personal property tax return for that year which is necessary for an assessing official to review the return. If this information is not provided, a thorough review of the return as required by law cannot take place.**

(c) **The penalty for failure to file a timely return as is defined in IC 6-1.1-37-7(a). No return shall be considered due within the meaning of this article until the expiration of a period of any extension of time which may have been granted pursuant to section 3 of this rule.**

(d) **The undervaluation penalty as is defined in IC 6-1.1-37-7(e).**

(1) **The purpose of the twenty percent (20%) penalty is to ensure a complete disclosure of all information required by the state board on the prescribed self-assessment personal property forms. This enables the township assessor, county property tax assessment board of appeals, and state board to carry out their statutory duties of examining returns each year to determine if they substantially comply with the rules of the state board. This examination cannot take place if all required information is not shown on the self-assessment return form.**

(2) **It is not the purpose of this provision to impose a penalty on a person who has made a complete disclosure of information required on the assessment return form. Therefore, if the person filing the self-assessment personal property return shows that they are claiming an exemption or taking an adjustment for abnormal obsolescence or permanently retired equipment on the return form and has complied with all of the requirements for claiming that exemption or adjustment, no penalty should be added to the extent of the amounts accounted for on the return form. In considering whether or not a taxpayer has made a full and complete disclosure of information, the complete return package must be considered. A complete return package consists of the return form itself (Form 102 or 103), and all necessary supplemental forms and supporting schedules which must be filed with the return.**

(3) **If a person has complied with all of the requirements for claiming an exemption or adjustment for abnormal obsolescence or permanently retired equipment, then the increase in assessed value that results from a denial of the exemption or change in the amount of adjustment is considered to be an interpretive difference not subject to the twenty percent (20%) penalty for undervaluation for purposes of this subsection. However, all other amounts not fully disclosed through omission or undervaluation which represent property subject to the reporting requirements of this article and the laws of this state are subject to the twenty percent (20%) penalty.**

(A) **An exemption is defined as a situation where a certain type of property, or the property of a certain kind of taxpayer, is not taxable (IC 6-1.1-1-6). There are three (3) basic types of exemptions which are permitted to be claimed on the annual business personal property return that are available to a taxpayer. These exemptions include:**

- (i) air pollution control equipment;**
- (ii) industrial waste control equipment; and**
- (iii) inventory exemptions, including:**
 - (a) interstate commerce; and**
 - (b) government-owned.**

(B) It should be noted that when the reporting requirements have been met, but for some reason the exemption is not allowed, the amount disallowed is an interpretive difference and is not subject to the omitted or undervalued personal property tax penalty. However, when items that would otherwise qualify for an exemption are omitted from the return, the property is taxable, because the exemption was waived, and the omitted and undervalued personal property tax penalty must be applied.

(C) Allowable adjustments can be defined as an adjustment that affects the value of personal property when the adjustment is truly elective. The taxpayer must elect the adjustment when the return is filed. If the taxpayer fails to properly elect the adjustment when the return is filed, the taxpayer is not entitled to the adjustment. The adjustment is not mandatory. The allowable adjustments are:

- (i) average inventory adjustment; and
- (ii) elective inventory valuation method.

(4) Mandatory adjustments reflect the value of personal property required to be reported in conformity with the provisions of this article. Therefore, regardless of whether the taxpayer shows the adjustment in their tax return, the assessing official must make the adjustment in order to arrive at the proper value for assessment purposes per the provisions of this article. Permanently retired equipment and abnormal obsolescence are adjustments which should be recognized to the extent that the property qualifies and the taxpayer is able to substantiate the facts, circumstances, and amount of the claim in order to properly determine the true tax value of the subject property.

(A) The mandatory adjustments for depreciable assets include:

- (i) adjust to federal tax basis;
- (ii) add fully depreciated property still in use but written off;
- (iii) add cost of installation and foundation applicable to depreciable personal property;
- (iv) equipment not placed in service;
- (v) permanently retired equipment;
- (vi) valuation of commercial aircraft and commercial buslines;
- (vii) abnormal obsolescence;
- (viii) percent good factors applicable to each year's acquisitions; and
- (ix) placement by year of acquisition in the proper pool based upon life utilized for computing cost recovery (depreciation) for federal tax purposes.

(B) The mandatory adjustments for inventory include:

- (i) adjust book inventory to March 1;
- (ii) add unrecorded inventory;
- (iii) adjust to "first-in-first-out" (FIFO);
- (iv) add manufacturing overhead not included in inventory;
- (v) add freight-in not included in inventory;
- (vi) add royalties, editorial, license, or copyright fees not included in inventory;
- (vii) add taxes not included in inventory;
- (viii) deduct inventory recorded but not received;
- (ix) deduct purchase or trade discounts; and
- (x) adjustment from standard to actual cost.

With the exception of the valuation of permanently retired equipment and abnormal obsolescence, mandatory adjustments for depreciable assets and inventory are not interpretive differences. They are adjustments which must be applied to any omitted or undervalued property when discovered. Any resulting differences in assessment between the amount reported by the taxpayer and the amount of assessment determined by the assessing official after making all mandatory adjustments is subject to the twenty percent (20%) penalty, while interpretive differences and math errors on the face of the return are not subject to the penalty.

(e) A penalty is due with an installment under subsection (b), (c), or (d) whether or not an appeal is filed under IC 6-1.1-15-5 with respect to the tax due on that installment. (*State Board of Tax Commissioners; 50 IAC 4.3-2-8*)

The brief or statement should include a concise statement of the ~~question(s)~~ **question** in dispute and a summary of ~~law(s)~~ **laws**, regulations, and facts in support of such ~~question(s)~~ **question**.

(d) The state board may hold an administrative ~~hearing(s)~~ **hearing** or appoint personnel to hold an administrative ~~hearing(s)~~ **hearing** at its discretion provided that the taxpayer has properly requested a hearing

and the state board determines that the taxpayer's facts and circumstances warrant an administrative hearing. Affected: IC 6-1.1-15-12

Sec. 6. If a taxpayer files a petition for correction of error (Form 133) with respect to a personal property assessment for years before March 1, 2002, the taxpayer opens that entire assessment to review. If errors other than those identified by the taxpayer are found in the process of review, they can be corrected, regardless of the net effect on the assessment. A taxpayer who claims that an error in an assessment entitles the taxpayer to a refund, the taxpayer must file both a Form 133, for correction of the assessment, and a Form 17T, for a refund. For more details and specific information on this process see IC 6-1.1-15-12. *(State Board of Tax Commissioners; 50 IAC 4.3-3-6)*

Rule 4. Valuation of Depreciable Tangible Personal Property

50 IAC 4.3-4-1 "Depreciable personal property" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 1. **As used in this rule**, “depreciable personal property” means all tangible personal property defined in 50 IAC 4.3-1-1~~(6)~~ **(5)** that is used in a trade or business, used for the production of income, or held as an investment that is subject to depreciation for federal income tax purposes, except to the extent that property is treated otherwise in this article. (*State Board of Tax Commissioners; 50 IAC 4.3-4-1*)

50 IAC 4.3-4-2 Book cost determinative

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 2. (a) The cost of depreciable property, both real and personal, shall be the total amount as recorded on the taxpayer’s books and records as of the assessment date, and must be utilized in determining the value of the depreciable personal property, except as provided in section 3 of this rule.

(b) Per the provisions of this article, ~~and as required in the Internal Revenue Code for federal tax purposes, effective January 1, 1994~~, the cost of depreciable personal property must include, but is not limited to, the following:

(1) Direct costs and an appropriate portion of indirect costs attributable to its production or acquisition and preparation for use. These costs include, but are not limited to, the following:

- (A) The purchase price.
- (B) Transportation costs to the place of use.
- (C) Installation costs.
- (D) Foundations and electrical wiring.
- (E) Interest incurred during construction and installation.
- (F) Sales tax.

(2) If the asset is constructed by the company, the original cost must be made up of, but not limited to, the following costs:

- (A) Direct and indirect labor costs and fringe benefits.
- (B) Direct material costs.
- (C) Designing.
- (D) Supervision.
- (E) Insurance.
- (F) Depreciation of equipment used in construction.
- (G) Claims for damage during construction not compensated by insurance.
- (H) Taxes during construction.
- (I) Interest incurred during construction.
- (J) Sales taxes.
- (K) Other costs directly chargeable to construction.

(3) If the asset is constructed by the company, the original cost should not include the following costs:

- (A) Profit should not be added to the actual costs since the company cannot make a profit on itself.
- (B) Any credits in the form of sales of scrap materials, discounts received on purchases of materials, and return premiums on surrender of insurance policies should be subtracted from the gross costs of construction to determine the actual cost of the asset.

(4) The allocation of interest incurred during construction and installation must be made (capitalized) for personal property tax purposes regardless of ~~the fact that Section 263 of the Internal Revenue Code of 1994 is not applicable in certain cases.~~ **how the property is required to be treated under federal income tax laws.**

(c) The cost of additions and betterments must be added to the original cost of the asset. If an additional part is added or some other change is made in the fixed asset that increases its estimated useful life, its production capacity or efficiency, or changes it to a different use, such an expenditure is a betterment and should be capitalized by adding it to the original cost of the asset. If a part is replaced with a similar part, the new part would be shown as a new acquisition while the part replaced would be removed from the original cost of the asset. The cost of additions, betterments, or replacements would be reported as an addition, betterment, or replacement in the year the actual expenditure occurred.

(d) In the event a taxpayer cannot determine from the taxpayer's books and records the cost of the depreciable property on the assessment date, the taxpayer must use the following procedure:

- (1) The book cost as of the close of the annual financial period immediately prior to the assessment date and so indicate on the return.
- (2) This book cost will then be adjusted to reflect all acquisitions and disposals that have occurred between such date and the assessment date.
- (3) This adjustment should be taken as provided in section 5 of this rule.
- (4) Add installation costs and foundations applicable to machinery and equipment.

These additions shall be reported and assessed on the same basis as the asset to which they apply.

(e) A taxpayer must be able to reconcile the cost of the depreciable personal property reported with the cost of all depreciable property as recorded on the taxpayer's books and records on the assessment date.

(f) Taxpayers with locations in more than one (1) taxing district in this state may fulfill the requirements of this section by making one (1) computation as required in subsection (e) for the entire state, provided that the cost of the depreciable personal property for each taxing district where the taxpayer has property on the assessment date is identified in such computation. (*State Board of Tax Commissioners; 50 IAC 4.3-4-2*)

50 IAC 4.3-4-3 Fully depreciated, retired, or nominally valued property; report and valuation

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 3. (a) Depreciable personal property, as defined in 50 IAC 4.3-1-1~~(4)~~ (5), not retired from use must be reported whether or not the cost of such property has been removed from, recorded on, or recorded at a nominal value on the taxpayer's books and records.

(b) Any fully-depreciated personal property that has been written off the taxpayer's books and records, is at the tax situs, and not permanently retired on the assessment date must be reported on the return. The cost of such property must be clearly shown as an adjustment as provided on the tax return as provided in section 5 of this rule.

(c) **As used in this rule**, "permanently retired depreciable personal property" means property that has been removed from the manufacturing process, or has been removed from service other than manufacturing, on the assessment date. In addition, if it is awaiting disposition, **or** scheduled to be scrapped, removed, or disposed of, it will be considered to be permanently retired providing the taxpayer actually scraps or sells such property. **If a taxpayer has permanently retired depreciable property, the following applies;**

(1) ~~Adjustment for permanently retired depreciable personal property.~~ Depreciable personal property that is on hand, included in the book cost as reported by the taxpayer, and permanently retired on the assessment date may be adjusted in the following manner:

(A) The book cost of permanently retired depreciable property can be taken as an adjustment from the total book cost provided the cost of such property is included in the total book cost.

(B) In order to qualify for this adjustment, a taxpayer will need to substantiate that the property was permanently retired and not in use.

(2) Permanently retired depreciable personal property should be valued at its net scrap or net sale value. The valuation of this property should be shown separately on the tax return.

(d) Depreciable personal property recorded on the books and records at a nominal or no value must be reported at its year of acquisition insurable value. This category of property would include, but is not limited to, bulk purchase or the acquisition of a going business concern. (*State Board of Tax Commissioners; 50 IAC 4.3-4-3*)

50 IAC 4.3-4-4 Computer equipment; report and valuation

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 4. (a) Computer equipment is made up of the following elements, **as used in this rule**:

- (1) **“Hardware” means** physical equipment used for input, processing, and output activities in an information system. It is composed of mechanical, magnetic, and electronic devices and other components which constitute the physical computer assembly.
- (2) **“System software” means a** set of generalized programs that manage the computer’s resources, such as the central processor, communication links, and peripheral devices. It is not normally accessible or modifiable by the user. Also system software may be referred to as the operating system.
- (3) **“Application software” means** programs written for a specific application to perform functions specified by end users.

(b) Computer hardware and system software must be reported at the actual acquisition cost regardless of how it may be valued on the taxpayers books and records. If the value for computer equipment recorded on the books and records reflects charges for customer support services, such as educational services, maintenance, or application software, that relate to future periods and not to the value of the tangible personal property, such charges may be deducted as intangible personal property to the extent that a separate charge or value can be identified. (*State Board of Tax Commissioners; 50 IAC 4.3-4-4*)

50 IAC 4.3-4-5 Adjustments to cost

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-31

Sec. 5. (a) The adjusted costs of the assessable depreciable personal property as computed in subsection (d), must be reported at the tax basis of such property as defined in ~~Section 1012 of the Internal Revenue Code of 1994~~ **adjusted by 26 U.S.C. § 1012, without any adjustments that may be authorized under federal income tax laws concerning:**

- (1) ~~Section 167~~ **26 U.S.C. § 167** (depreciation);
- (2) ~~Section 179~~ **26 U.S.C. § 179** (expense deduction);
- (3) any credits (such as investment tax credit) that diminished the cost basis of the property;
- (4) the value of any trade-in property; or
- (5) any other assessable property that ~~the Internal Revenue Service allows~~ **is allowed** to be expensed **under federal income tax laws.**

Therefore, if the tax basis of the taxpayer’s assessable depreciable personal property is different than the cost per books of such property, except for the depreciable personal property defined and required to be reported by section 3 of this rule, an adjustment must be made to the cost per books of the assessable personal property reported in Indiana.

(b) The adjustment from book to tax basis must be computed on Form 106 and shown on line 2 of Form 103–Long, Schedule A.

(c) This adjustment is required to be made regardless of whether it is an increase or decrease from the cost per books.

(d) Other adjustments include deducting the cost of the following types of property:

- (1) Air pollution control system.
- (2) Industrial waste control facility.
- (3) Real property.
- (4) Airplanes subject to excise tax.
- (5) Vehicles subject to excise tax.

(e) The adjusted cost of depreciable personal property, is the resultant amount obtained by adjusting the cost per books, as defined in section 2 of this rule, by all adjustments within this section. (*State Board of Tax Commissioners; 50 IAC 4.3-4-5*)

50 IAC 4.3-4-6 Pools of property; determination of costs by acquisition year

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-31

Sec. 6. (a) The adjusted cost of depreciable personal property, as computed in section 5 of this rule, is required to be segregated into four (4) separate pools. The depreciable life utilized for federal income tax purposes determines the pool to be utilized for Indiana property tax purposes. The pools are as follows:

- (1) Pool No. 1: All assets that have a life of one (1) through four (4) years.
- (2) Pool No. 2: All assets that have a life of five (5) through eight (8) years.
- (3) Pool No. 3: All assets that have a life of nine (9) through twelve (12) years.
- (4) Pool No. 4: All assets that have a thirteen (13) year or longer life.

(b) **“Depreciable life” means** the life used to determine the proper selection of the pool in which an asset must be included. It is based upon the life utilized to compute depreciation on the federal income tax return of the taxpayer unless **the following occurs**:

- (1) The state board determines that such life is either unrealistic in relation to all of the taxpayer’s facts and circumstances or the life used on the federal tax return has been changed by the Internal Revenue Service on audit.
- (2) The lives used by taxpayers in the state for a particular category of assets are varied and the state board, in order to obtain equalization in assessments, determines that a uniform life should be used by all taxpayers in the state pursuant to 50 IAC 4.3-7-2.

(State Board of Tax Commissioners; 50 IAC 4.3-4-6)

50 IAC 4.3-4-7 Determination of the year of acquisition

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 7. (a) After calculating the total adjusted cost of depreciable tangible personal property, as provided in section 5 of this rule, it is necessary to determine the cost by year of acquisition for each pool.

(b) Each pool is required to be segregated by year of acquisition as detailed on the annually updated personal property forms prescribed in 50 IAC 4.3-2.

(c) The year of acquisition for Indiana property tax purposes is a fiscal year of March 2 to March 1 unless the taxpayer elects to use the same year as that used for federal tax purposes **as follows**:

- (1) If a taxpayer has a fiscal year that ends on December 31 or January 31, the taxpayer may elect to use the alternative fiscal year that is used for federal income tax purposes to determine the year of acquisition of assets for Indiana property tax reporting purposes. Otherwise, a taxpayer is not eligible to elect to use an alternative fiscal year to compute year of acquisition for Indiana personal property tax purposes and must use a fiscal year of March 2 to March 1.
- (2) If an alternative fiscal year election is made, any acquisitions made after the close of the taxpayer’s federal taxable year, up to and including the assessment date, must be included in the space provided on the appropriate form.

(d) For Indiana property tax purposes it will be presumed that the disposal of depreciable personal property occurs on a first-in, first-out basis unless the taxpayer establishes that such was not the case. *(State Board of Tax Commissioners; 50 IAC 4.3-4-7)*

50 IAC 4.3-4-8 True tax value determination; exception

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 8. (a) The true tax value for Indiana property tax purposes is computed by multiplying the adjusted cost of each year’s acquisitions in the respective ~~pool(s)~~ **pool** by a percentage good factor obtained in subsection (b). These factors automatically reflect all forms of depreciation for Indiana property tax purposes, except abnormal obsolescence as provided in section 9 of this rule.

(b) The table in this subsection provides the percentage good factors applied to the adjusted cost within each pool in order to compute true tax value for each pool. Once the true tax value for each year within each pool is

calculated, they are summed to determine the true tax value of each pool. The true tax values for each of the four (4) pools is then summed and placed in the “Total All Pools” cell. The table of percentage factors is as follows:

<p style="text-align: center;">Table of Percentage Good Factors Depreciable Lives Utilized for Federal Income Taxes</p>				
Year of Acquisition (as detailed on the personal property forms)	Pool 1 1 to 4 Years	Pool 2 5 to 8 Years	Pool 3 9 to 12 Years	Pool 4 13 Years and Longer
1	76 %	88 %	92 %	93 %
2	53 %	76 %	84 %	85 %
3	29 %	64 %	75 %	78 %
4	5 %	51 %	67 %	71 %
5	5 %	39 %	59 %	63 %
6	5 %	27 %	51 %	56 %
7	5 %	15 %	43 %	49 %
8	5 %	15 %	35 %	42 %
9	5 %	15 %	26 %	34 %
10	5 %	15 %	18 %	27 %
11	5 %	15 %	10 %	20 %
12	5 %	15 %	10 %	12 %
13	5 %	15 %	10 %	5 %
Over 13	5 %	15 %	10 %	5 %

(c) If personal property is leased, such property will not be valued in accordance with this rule, rather it is to be reported in accordance with the provisions of 50 IAC 4.3-8. (*State Board of Tax Commissioners; 50 IAC 4.3-4-8*)

50 IAC 4.3-4-9 Adjustment for abnormal obsolescence

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 9. (a) A taxpayer may claim an adjustment for abnormal obsolescence, as defined in 50 IAC 4.3-9-3, provided that such taxpayer follows the procedures and meets the requirements regarding such adjustment outlined in 50 IAC 4.3-9.

(b) Limitations are as follows:

(1) No adjustment will be allowed for normal obsolescence, as defined in 50 IAC 4.3-9-2, since it is accounted for in the percentage good factor(s).

(2) If an abnormal obsolescence adjustment is made, the dollar amount of the adjustment may not exceed the true tax value, as computed in section 8 of this rule, for the specific depreciable asset(s) on which the taxpayer claims the adjustment.

(3) In no instance may the abnormal obsolescence adjustment result in a true tax value less than the net scrap or net sale value of the affected asset.

(*State Board of Tax Commissioners; 50 IAC 4.3-4-9*)

50 IAC 4.3-4-10 Determination of property as real or personal

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-1

Sec. 10. (a) The following guide is intended to assist in the identification of property as either real or personal.

(b) The use of a unit of machinery, equipment, or structure determines its classification as real or personal property. If the unit is directly used for manufacturing, or a process of manufacturing, it is considered personal

property. If the unit is a land or building improvement, it is considered real property.

(c) On-site utility piping, such as sanitary and storm sewers, potable water and fire prevention lines, and gas lines are considered on-site development costs and are included in the base rate when calculating the value of land. Real property land improvements are those improvements extraneous to site development, which are placed on the land to improve the parcel. They are normally considered yard items. Real property land improvements include, but are not limited to, the following:

- (1) Retaining walls.
- (2) Private roads.
- (3) Paved roads.
- (4) Bridges.

- (1) Foundations.
- (2) Walls.
- (3) Floors.
- (4) Roof.
- (5) Insulation.
- (6) Stairways.
- (7) Partitions.
- (8) Loading and unloading platforms.
- (9) Canopies.
- (10) Areaways.
- (11) Heating systems.
- (12) Air conditioning.
- (13) Ventilation systems.
- (14) Sanitation.

Rule 5. Valuation of Inventory

50 IAC 4.3-5-1 Definitions

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11; IC 6-1.1-2; IC 6-1.1-3; IC 6-1.1-31; IC 26-1

Sec. 1. The following definitions apply throughout this rule:

(1) “Cost of inventory” includes the following:

(A) The primary basis of accounting for inventories is cost, which has been defined generally as the price paid or consideration given to acquire an asset. As applied to inventories, cost means, in principle, the sum of the applicable expenditures and charges directly or indirectly incurred in bringing an article to its existing condition and location as of the assessment date. Uniform capitalization rules generally require capitalization of all direct material, direct labor, and an allocable portion of indirect costs attributable to acquiring or producing tangible personal property.

(B) Manufactured or work in process inventory located at the manufacturing or processing plant will include all costs paid or incurred for materials, labor, and manufacturing expenses to bring the inventory to the actual state of completion on the assessment date.

(C) As used in the phrase “lower of cost or market” cost should be carried forward for assignment in future periods, except when it is evident that the utility of the goods is no longer as great as their cost. Where there is evidence that the utility of goods, in their disposal in the ordinary course of business, will be less than cost, whether from damage, deterioration, obsolescence, style change, over-supply, reduction in price levels, or other causes, the inventory items should be stated at a lower level commonly designated as “market”.

(2) “Intra-company profits” means the net profits on intra-company transfers within the legal entity filing the tax return and not profits from a separate legal entity, regardless of any inter-corporate relationships. Intra-company profits are not required to be included in the valuation of inventory for assessment purposes since they have not been earned.

(3) “Manufacturing expenses” (overhead or indirect costs) means those costs of manufacturing that in an accounting sense are costs that are not directly attributable to the item being produced. These indirect costs consist of, but are not limited to, such items as the following:

(A) Repairs and maintenance of equipment and facilities.

(B) Utilities.

(C) Rental of equipment, facilities, or land.

(D) Indirect labor.

(E) Supervisory wages.

(F) Indirect materials and supplies.

(G) Quality control and inspection.

(H) Depreciation, amortization, and cost recovery allowable on equipment and facilities.

(I) Rework labor.

(J) Scrap and spoilage.

(K) Factory administrative cost.

(L) Administrative, service, or support functions related to production.

(M) Production officers’ salaries.

(N) Insurance on production plant, production equipment, and inventory.

(O) Employee benefits (not including the past service portion of pension plans).

(P) Bidding costs on awarded contracts.

(Q) Engineering and design expenses (other than research and experimental expenses).

(R) Off-site storage and warehousing.

(S) Purchasing costs.

(T) Handling costs.

(U) A portion of general and administrative costs allocated to these functions.

Many of these costs are of such nature that the taxpayer in its regular accounting system determines by an estimate the amount of each cost that is used in a specific operation and consequently, for accounting purposes, allocates such costs at various stages, processes or upon completion, based upon a percentage of a determinable cost. A determinable cost is a cost that in an accounting sense is measured as incurred. Consequently, indirect cost or overhead is comprised of those expense items or costs that, for the accounting purposes of the taxpayer filing the return, are allocated to the product being produced on a percentage basis or based on some other reasonable relationship. Physical association of these costs with the items produced is seldom possible; nevertheless, the past experience of a company will offer a valid basis for allocation.

(4) “Market” means current replacement cost (by purchase or by reproduction, as the case may be) except that market should not:

(A) exceed the net realizable value, that is, estimated selling price in the ordinary course of business less reasonably predictable costs of completion and disposal; and

(B) be less than net realizable value reduced by an allowance for an approximately normal profit margin.

(5) "New taxpayers" means a taxpayer will be deemed to be a new taxpayer in a taxing district when the taxpayer has not had inventory in the given taxing district for any month during the preceding calendar year.

(6) "Public warehouse" means a storage facility that is operated by one engaged in the business of receiving, shipping, or storing goods of others for hire, through the issuance of warehouse receipts and releases, in accordance with the Indiana Uniform Commercial Code (IC 26-1). The storage facility must be under the supervision and control of the warehouseman and staffed by its employees or agents, thereby excluding from this definition leased facilities operated by a lessee not engaged in the business of public warehousing.

(7) "Warehouse" means an area, enclosure, building, or structure, public or private, maintained for the storage of inventory or other tangible personal property.

(State Board of Tax Commissioners; 50 IAC 4.3-5-1)

50 IAC 4.3-5-2 Inventory subject to assessment

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 2. (a) Generally, all inventory with a tax situs in the state on the assessment date shall be subject to assessment. Certain inventories, have specific exemption procedures noted in 50 IAC 4.3-12. Every person, including any firm, partnership, association, corporation, fiduciary, or individual owning, holding, possessing, or controlling inventory in any capacity whatsoever with a tax situs within the state on the assessment date is required to file a personal property tax return and report such inventory as provided in 50 IAC 4.3-2-2.

(b) The inventory subject to assessment includes all inventory, whether or not in the actual possession of the owner, within the state on the assessment date. Inventory maintained in a warehouse will be taxed to the owner of the inventory unless as of the filing date, the owner of the property as of the assessment date is unknown by the assessor, in which case said property shall be assessed to the possessor. Every owner or operator of a warehouse, grain elevator, terminal, or other storage facility is required to report, by the filing date, all tangible personal property stored in such facilities that it holds, possesses, or controls but does not own, on Form 103-N.

(c) Inventory consigned for sale is to be assessed to the owner (consignor) of the property where a tax situs exists on the assessment date. The consignor is required to file a complete return, including a list of such property on Form 103-O. The consigned inventory must be reported as not-owned property by the consignee and clearly designated as such. This property must be reported on Form 103-N.

(d) All whole grain that is owned, controlled, or possessed by any taxpayer with a tax situs within the state on the assessment date is required to be reported for assessment.

(e) In order to provide for a uniform method of assessment of grain in storage, the state board has made the following determinations:

(1) Grain stored on the farm or where produced shall be assessed and taxable to the owner of said grain in the taxing district where stored.

(2) Grain stored in a warehouse or grain storage facility **shall be assessed as follows:**

(A) Grain stored in a warehouse or grain storage facility shall be assessed and taxable, in the taxing district where stored, to the persons in whose name the warehouse receipt is outstanding.

(B) Grain stored at an elevator or other grain storage facility under conditions whereby the owner of the grain may subsequently have the grain returned, or may sell such grain or exchange such stored grain for other commodities, and a grain receipt (including scale ticket or other depository paper) is given, shall be taxable in the taxing district where stored to the owner of such grain.

(C) All grain owned by an elevator or other storage facility must be reported on Form 103. Grain under a purchase contract and not in possession of the purchaser shall be taxed to the seller of such grain to the extent that such grain has not been paid for and shall be taxed to the purchaser to the extent that payment has been made for such grain.

(3) CCC Grain is grain used as collateral on a Commodity Credit Corporation loan with the Natural Resources

Conservation Service (NRCS). The producer retains title and control of this grain and can choose where and when to sell the grain on the open market and pay off the loan. If the market price drops below a guaranteed price, the producer may choose to forfeit title to the grain to the federal government and repayment of the loan will be forgiven. This grain shall be assessed and taxable to the owner of said grain in the taxing district where stored.

(4) Grain delivered to an elevator or other storage facility under a “price later” or “deferred pricing” contract becomes the property of the elevator at the time of delivery and shall be assessed and taxed to the elevator if on hand on the assessment date. The seller is assessable for “price later” grain until delivery is made to the elevator at which time title, possession and control is transferred to the elevator.

(5) Grain taken over or otherwise owned by the federal government shall be reported on the personal property assessment Form 103 by the elevator or grain storage facility as being in its possession. No assessment shall be made on such grain since a deduction may be taken as “exempt” on such property.

(State Board of Tax Commissioners; 50 IAC 4.3-5-2)

50 IAC 4.3-5-3 Valuation of inventory

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3-11; IC 6-1.1-31

Sec. 3. Except as otherwise provided in this article, the cost of inventory as recorded on the regular books and records of the taxpayer on the assessment date must be reported on the personal property return of the taxpayer. The use of “lower of cost or market” method for valuing inventory for book accounting purposes is allowable for Indiana property tax purposes. (State Board of Tax Commissioners; 50 IAC 4.3-5-3)

50 IAC 4.3-5-4 Mandatory adjustments

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3-11; IC 6-1.1-31

Sec. 4. (a) If the cost per books of the inventory reported by the taxpayer does not include the following items, such cost must be adjusted for the following items before making any other valuation adjustments or exemptions:

(1) LIFO reserve (the last-in-first-out method of valuing inventories). No reduction for LIFO is allowed in the valuation of inventories pursuant to this article. If the dollar amount shown as the cost per books of the taxpayer’s inventory has been reduced for a LIFO adjustment, the dollar amount of the adjustment must be added back.

(2) Manufacturing expenses (overhead or indirect cost). If the cost per books of inventory located at the manufacturing or processing plant excludes any or all manufacturing overhead, an adjustment increasing such cost for overhead must be made.

(3) Discounts and freight. The cost of the inventory shall be reduced for purchase, trade, and cash discounts providing the cost per books of the taxpayer’s inventory includes these items. The cost of inventory shall be increased for freight-in to the extent that it is attributable to the inventory on hand, providing the cost per books of the taxpayer’s inventory does not reflect this item.

(4) Adjustment for standard cost. If the inventory on the books is recorded at a standard cost, an adjustment is required to reflect the difference, if any, between such standard cost and actual cost.

(5) Royalties, editorial costs, or license or copyright fees. If the cost per books of inventory excludes any royalties, editorial costs, or license or copyright fees, an adjustment increasing such cost must be made. If the payment of such fees is contingent upon the sale of the inventory, it shall be deemed to be directly incurred, and therefore shall be added.

(6) Taxes and duties. If the cost per books of inventory excludes any taxes (other than state, local, and foreign income taxes) that have been paid or incurred, an adjustment increasing such cost must be made **as follows:**

(A) Federal taxes, except income taxes, are considered to be part of the cost of the product for inventory valuation purposes at all levels of trade.

(B) State taxes are considered to be part of the cost of the product at the retail level.

(C) Following is a summary of the assessability of state and federal taxes at the various levels of trade.

	Federal Taxes	State Taxes
Distillers/ Manufacturers	Assessable	Not assessable

Wholesalers Assessable State taxes on beer, liquor, and wine are assessable. Tax stamps if affixed on cigarettes are assessable.

Retailers Assessable Assessable

(D) Goods held in bond on March 1 include products that are imported from foreign countries and placed in the custody of agents of the federal government until custom duties and federal excise taxes, imposed by the federal government, have been paid. These goods have arrived at their destination in the bonded warehouse and are assessable in the amount of the purchased cost of the merchandise, excluding custom duty and federal excise tax, plus freight in to the location of the bonded warehouse. Customs duty and federal excise taxes on “goods held in bond” are not due and payable until such time as the goods are withdrawn from bond, therefore these costs are not to be included in determining the cost of bonded inventories for property tax purposes.

(State Board of Tax Commissioners; 50 IAC 4.3-5-4)

50 IAC 4.3-5-5 Reporting of inventory not carried on books of taxpayer

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-2-1; IC 6-1.1-31

Sec. 5. (a) All inventory as defined in 50 IAC 4.3-1-1(7) and section 2 of this rule is required to be reported for personal property tax assessment purposes even if a taxpayer may:

- (1) expense such inventory in the period acquired for regular accounting or federal tax purposes; or
- (2) have failed to properly reflect inventory on hand but not recorded on the taxpayers books or records.

This inventory includes, but is not limited to, supplies, repair parts, or expendable tools on hand on the assessment date.

(b) In general, **when valuing inventory expensed on books**, unless the taxpayer can otherwise substantiate, the value of the unrecorded inventory will be computed as follows:

- (1) The total expenditures for the unrecorded inventory items during the twelve (12) months immediately preceding the assessment date shall be determined by reference to the regular books and records of the taxpayer.
- (2) One-twelfth ($\frac{1}{12}$) of the total expenditures for the year for unrecorded inventory must be reported as the valuation of the unrecorded inventory.
- (3) This computation must be made for each classification of unrecorded inventory that exists.

(c) Except as provided in subsection (b), the value of inventory not recorded on the books and records of the taxpayer on the assessment date is the actual cost of such inventory. (State Board of Tax Commissioners; 50 IAC 4.3-5-5)

50 IAC 4.3-5-6 Elective inventory valuation method

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3-11; IC 6-1.1-31

Sec. 6. (a) As an alternative method to valuing inventory, a taxpayer who is in possession of inventory may value finished goods and work in process inventory as follows:

- (1) The cost of raw materials and supplies, which must include the total cost directly or indirectly incurred, including freight, to bring the property to the location where it will be utilized. Taxpayers acquiring manufactured products from related entities shall include in the accountability cost the sum of all costs directly or indirectly incurred in bringing the article to its existing condition and location on the assessment date. In addition, the cost of all direct production labor shall be added.
- (2) Any adjustment taken from inventory valuation must be the same basis on which it was included in the tax return.
- (3) This election must be applied to all locations within this state, except as noted in subdivision (4).
- (4) This election is available only for a taxpayers finished goods or work in process inventories.

(b) Computations of the valuation method outlined in this section are required to be attached to the tax return and computed on Form 106. (State Board of Tax Commissioners; 50 IAC 4.3-5-6).

50 IAC 4.3-5-7 Average inventory election

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3; IC 6-1.1-31

Sec. 7. (a) A taxpayer may elect to value inventory on the prior calendar year average. This is applicable to all taxpayers, including manufacturers and processors, with respect to materials held for use and production, supplies of all types, and finished or partially finished goods.

(b) This election is made by notifying the assessor in the space provided on the return at the time of filing the return.

(c) The election, once made, is binding upon the taxpayer for the tax year in which elected and for each year thereafter unless written permission to change for reasonable cause is granted by the state board prior to filing subsequent years' **original personal property** return.

(d) When a taxpayer has elected to use the average method, the taxpayer must use that method for reporting the value of its inventory at all locations in the state. When the taxpayer is a new taxpayer in a taxing district, between January 1 and March 1 of the assessment year, the election is not binding in such taxing district because the taxpayer did not have inventory in the taxing district during the preceding calendar year.

(e) The average inventory shall be determined by computing the cost (as provided in sections 3 through 5 of this rule or section 8 of this rule) of the inventory on hand at the end of each uniform accounting period in the prior calendar year, which shall not be less than twelve (12) periods, **including the following requirements.**

(1) The accounting periods used by the taxpayer to determine the base for computing average inventory must be the accounting period that represents a regular and ordinary practice of the taxpayer.

(2) If a taxpayer was engaged in business for only a portion of the preceding calendar year in a taxing district, the average method of valuation shall be based upon the average of the full calendar months during which the taxpayer was engaged in business in the prior calendar year.

(3) Adequate books and records showing the property on hand and the value thereof as of the last day of each accounting period in the prior calendar year must be maintained by the taxpayer electing to use the average method of inventory valuation.

(f) If a taxpayer becomes a new taxpayer in a taxing district between January 1 and the March 1 assessment date, the actual cost of the inventory on hand in the given taxing district on the assessment date must be reported.

~~(1)~~ This is required even though the taxpayer has made a valid election to compute its inventory on the average method for the entire state **and**

~~(2) This exception~~ is applicable only for the first year that a taxpayer is a new taxpayer in a taxing district.

(State Board of Tax Commissioners; 50 IAC 4.3-5-7)

50 IAC 4.3-5-8 Average inventory election for perishable horticultural processors

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3; IC 6-1.1-31

Sec. 8. (a) In lieu of all other methods specified in this section, a first processor of perishable horticultural products may list its inventory of such products that have passed the first process stage at one-twelfth ($\frac{1}{12}$) of the true tax value of such products processed in the twelve (12) month period ending on the assessment date. If such processor has not been in business for a continuous twelve (12) month period preceding the assessment date, such products may be listed at the true tax value of such products processed during the period the processor was in business divided by the number of whole months during such period.

(b) The following definitions apply **throughout this section:**

(1) "First process" means the first operation of preservation after harvest.

- (2) "First processor" means the taxpayer that completed the first process.
- (3) "Horticultural products" means the following fruits and vegetables suitable for human consumption:

- (A) Cherries.
- (B) Lima beans.
- (C) Peas.
- (D) Turnip greens.
- (E) Spinach.
- (F) Tomatoes.
- (G) Asparagus.
- (H) Green beans.
- (I) Sweet corn.
- (J) Grapes, in the form of wine.
- (K) Pimentos.
- (L) Plums.
- (M) Red raspberries.
- (N) Strawberries.
- (O) Broccoli.
- (P) Cauliflower.
- (Q) Brussel sprouts.
- (R) Peaches.
- (S) Shellie beans.
- (T) Waxed beans.
- (U) Apricots.
- (V) Cucumbers, in the form of pickles.

- (4) "Perishable" means commodities that require, under ordinary circumstances, some affirmative and continuous step such as refrigeration or canning within forty-eight (48) hours of harvest to preserve them from decay or spoilage.

(c) The special valuation adjustment under subsection (a) shall be applied only to those products that qualify in subsection (b)(3) and is not applicable to the value of any other ingredients or additives, the container, label, or shipping case.

(d) The taxpayer shall report the actual March 1 booked inventory in the tax return being filed. (1) ~~In the event~~ The cost as recorded on the regular books and records of the taxpayer does not reflect acquisitions and transfers since the end of the financial period immediately preceding the assessment date, such acquisitions and transfers are required to be included.

(2) ~~¶~~ The cost as recorded on the regular books and records of the taxpayer reflects advance payments or deposits, and if such amounts were attributable to tangible personal property, these amounts shall be allowed as a deduction from book cost.

(d) The true tax value of tangible personal property not placed in service as defined in subsection (b)(2), is eighty-seven percent (87%) of the cost of such property. (State Board of Tax Commissioners; 50 IAC 4.3-6-1)

50 IAC 4.3-6-2 Improvement to leased real or personal property

(b) Returnable containers must be reported where located on the assessment date by the taxpayer owning the returnable containers. In addition, the owner is required to furnish a complete listing, on Form 103-O, of all the owner's personal property that is in possession of another ~~person(s)~~ **person** pursuant to 50 IAC 4.3-2-4. The ~~person(s)~~ **person** holding, possessing, or controlling returnable containers not owned, is required to furnish a complete listing on Form 103-N.

- (1) the amount of deposit required;
 - (2) the refund entitled when returned to the owner;
 - (3) the sales price; or
 - (4) the cost to the owner.

The resultant cost must then be valued in the same manner as other depreciable personal property. (*State Board of Tax Commissioners; 50 IAC 4.3-6-3*)

In addition, the owner is required to furnish a complete listing on Form 103-T of all their special tools in the possession of another person pursuant to 50 IAC 4.3-2-4. The person holding, possessing, or controlling special tools, not owned, is required to furnish a complete listing on Form 103-T, of all not owned personal property pursuant to 50 IAC 4.3-2-4.

(c) The cost and adjustments to cost of special tools is determined in the same manner as other depreciable tangible personal property under 50 IAC 4.3-4 and calculated on the Form 103-T, however the depreciation of special tools is calculated using the following percentage good factors:

Table of Percentage Good Factors for Special Tools

Year of Acquisition (as detailed on the Form 103-T)	Special Tools Percent Good

Sec. 1. (a) In the case of certain types of personal property that the state board determines have readily ascertainable values, the state board may determine the true tax value of such property. These types of personal property will be valued pursuant to 50 IAC 4.3-14, or the state board will issue instructional bulletins listing the unit values of such property. These bulletins will be published in the Indiana Register as nonrule policy statements.

(b) The types of personal property to be valued pursuant to this section include, but are not limited to:

- (1) agricultural commodities,
- (2) certain livestock;
- (3) certain types of petroleum products;
- (4) recreational vehicles;

50 IAC 4.3-7-2 Uniform lives of assets; publication

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

50 IAC 4.3-7-3 Assessment of farm commodities and livestock

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 3. (a) The state board will prescribe the values to be used for the assessment of farm livestock and commodities in order to provide for a uniform method of assessment throughout the state.

(b) In determining the values to be used for the assessment of farm livestock, and commodities, the state board will consult with the Agriculture Department of Purdue University to determine the cost of production of fungible whole grain commodities and livestock as well as take into consideration the market value of said products as of the assessment date. After determining the values of the various fungible whole grain commodities, livestock, and poultry, the state board **must meet with, and consider, the recommendations of a farm committee consisting of individuals engaged in the production of such products or representatives of groups representing persons engaged in the production of such products. The commissioners of the state board will determine the members of the farm committee and invite them to an annual meeting prior to will adopting the values to be utilized for the particular assessment year involved. The state board must notify, in writing, the Commissioner of Agriculture and the farm committee of the final values adopted within ten (10) days of the annual meeting.**

(c) In accordance with the Indiana court of appeals decision in *Lyon and Greenleaf Co., Inc. v. State Board of Tax Commissioners*, each fungible whole grain commodity must be assessed at the same value throughout the

state of Indiana, regardless of ownership or effect of location on value, so long as the commodity is in its fungible raw condition. However, certain livestock, poultry, seed, or other commodities with substantially more value than reflected in the values adopted by the state board must be reported at its true tax value. Examples would be show horses, show livestock, prize race horses, and seeds.

(ed) The values adopted by the state board will be issued on an annual basis. (*State Board of Tax Commissioners; 50 IAC 4.3-7-3*)

- (4) Gasoline (all grades).
- (5) Motor oil (all grades).
- (6) LP gas.
- (7) Distillate fuel, including kerosene, fuel oil, tractor fuel, jet fuel, and diesel fuel.

(c) The price to be used for the valuation of crude oil and other petroleum products will be based upon commodity prices reported in the Oil Daily, Oil and Gas Journal, the Wall Street Journal, or other industry publications as of March 1 of the assessment year. Since these prices must be as of March 1 of each assessment year, the state board will issue the actual prices for each of these commodities after March 1 of the assessment year.

(d) Inventories of these commodities at the refinery will be valued at the total cost pursuant to 50 IAC 4.3-5, while inventories of these same items at the other levels of trade, namely the terminal, bulk plant, and retail stations will be valued to include the sum of the applicable expenditures and charges directly or indirectly incurred to bring these items to their existing condition and location as of the assessment date.

(e) All petroleum prices shall be listed in the return at the prices adopted by the state board.

(f) In order to provide for a uniform method of assessment, and to obtain equalization in the assessment of petroleum industry marketing facilities, the state board establishes the useful life of all tangible personal property used in the marketing of petroleum products as being twelve (12) years. 50 IAC 4.3-8-6 Valuation; base year value defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 6. (a) The base year value of the leased property, plus freight and installation costs, must be used in determining the value of leased personal property subject to assessment.

(b) As used in this section, “base year value” means the dollar amount that a willing buyer would pay the owner in an arm’s-length transaction to acquire the personal property encumbered by the lease at the beginning of the lease term.

(c) ~~Determining base year value.~~ For purposes of applying this section to a specific situation, base year value shall be computed in the following order of preference:

- (1)** The alternative acquisition cost, which is the amount stated in the lease the lessee would have had to pay to purchase the leased property instead of leasing it. This will be deemed to be the base year value, provided that the local assessor or state board does not determine that such amount is not reflective of the market value of the leased property.
- (2)** The factory delivered price for the personal property subject to the lease plus freight, installation costs, and a profit factor.
- (3)** The present value of the lease payments at the inception of the lease computed in accordance with section 10 of this rule.
- (4)** The insurable value in the year the lease was first consummated.
- (5)** The capitalized value of the annual lease payments over the term of the lease.

(d) If the state board issues an instructional bulletin or administrative adjudication prescribing the base year value of certain property pursuant to this article, such prescribed value shall be the base year value of the property. *(State Board of Tax Commissioners; 50 IAC 4.3-8-6)*

50 IAC 4.3-8-7 Pools for base year values; summation by year placed in service

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 7. (a) The base year value of all leased personal property reported in a tax return is required to be segregated for Indiana property tax purposes into four (4) separate pools in accordance with 50 IAC 4.3-4-6. The depreciable life utilized for federal income tax purposes determines the pool to be utilized and are as follows:

- (1)** Pool No. 1: One (1) through four (4) year life.
- (2)** Pool No. 2: Five (5) through eight (8) year life.
- (3)** Pool No. 3: Nine (9) through twelve (12) year life.
- (4)** Pool No. 4: Thirteen (13) year or longer life.

(b) Sum the base year values of items of same pools and year placed in service and report the summed values in the appropriate pool. *(State Board of Tax Commissioners; 50 IAC 4.3-8-7)*

50 IAC 4.3-8-8 Determination of true tax value

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 8. The true tax value of leased personal property is computed by multiplying the summed base year values in the respective pools by the percentage factor provided on the Form 103, Schedule A-1. This percentage factor reflects all adjustments except for abnormal obsolescence. *(State Board of Tax Commissioners; 50 IAC 4.3-8-8)*

50 IAC 4.3-8-9 Abnormal obsolescence adjustment

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 9. The true tax value computed in section 8 of this rule may be adjusted for abnormal obsolescence pursuant to 50 IAC 4.3-9-3. (State Board of Tax Commissioners; 50 IAC 4.3-8-9)

50 IAC 4.3-8-10 Present value of personal property leases

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 10. (a) Pursuant to section 6(c)(3) of this rule, the state board has prescribed the following for the computation of the present value of leased personal property:

- (1) If ownership of the property is transferred to the lessee (or may transfer if one (1) of the parties exercises an option) at or before the end of the lease, the term of the lease shall be the term used for computation of the present value.
- (2) If title to the property is not transferred to the lessee, the prescribed federal tax depreciable life of the asset at the inception of the lease shall be the term for computing the present value.
- (3) If the length of the lease is not specific, the prescribed federal tax depreciable life of the asset at the inception of the lease shall be the term for computing the present value.
- (4) If the lease contains a balloon payment, such payment must be included in the present value computation. A balloon payment is a lump-sum payment scheduled at the inception of, during, or at the conclusion of the lease.
- (5) If the lease indicates the rate of interest included in the payments, such rate shall be used for computing the present value.
- (6) If no interest rate is stated in the lease, the rate to be used in the computation shall be the Federal Reserve Bank prime commercial bank loan rate on the March 1 nearest to the inception of the lease. The state board shall publish such rates annually.
- (7) If the amount of any ~~payment(s)~~ payment (including balloon payments) is not known at the inception of the lease, the present value of the lease payments cannot be computed, and therefore may not be used for determining the base year value.
- (8) If the present value computed in accordance with this section does not result in a reasonable valuation, at the discretion of the state board the computed present value may not be used as the base year value.

(State Board of Tax Commissioners; 50 IAC 4.3-8-10)

Rule 9. Obsolescence

50 IAC 4.3-9-1 "Obsolescence" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 1. "Obsolescence" means a loss in value caused by inutility within the item of personal property or by changes in demand for the goods produced by the item of personal property. ~~It~~ Obsolescence may be caused by:

- (1) defects in:
 - (A) design;
 - (B) style;
 - (B) capacity; or
- (2) a deficiency; or
- (3) a superadequacy; ~~and/or by~~
- (4) changes in the tastes of buyers in the marketplace.

~~(1)~~ (b) Functional obsolescence is a loss in value due to impairment of functional capacity as a result of inadequacy, over capacity, or changes in the state of the art.

~~(2)~~ (c) External obsolescence is a loss in value arising from forces outside the property itself.

(State Board of Tax Commissioners; 50 IAC 4.3-9-1)

50 IAC 4.3-9-2 "Normal obsolescence" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 2. “Normal obsolescence” means the anticipated or expected reduction in the value of business personal property that can be foreseen by a reasonable, prudent businessperson when property is acquired and placed into service. In general, it includes the expected gradual decline in value because of expected technological innovations and the general assumption that such property will have a minimum value at the end of its useful life. The depreciation allowed pursuant to 50 IAC 4.3-4 accounts for normal obsolescence as well as physical deterioration **through the use of historical cost and short useful lives.** (State Board of Tax Commissioners; 50 IAC 4.3-9-2)

50 IAC 4.3-9-3 “Abnormal obsolescence” defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 3. (a) “Abnormal obsolescence” means obsolescence that occurs as a result of factors over which the taxpayer has no control and is unanticipated, unexpected, and cannot reasonably be foreseen by a prudent businessperson before the occurrence. It is of a nonrecurring nature and includes unforeseen changes in market values and exceptional technological innovations that have a direct effect upon the value of the personal property. Any abnormal obsolescence that affects the personal property must be considered separately since it has not been accounted for in normal obsolescence or physical deterioration. Abnormal obsolescence is calculated using different methodologies depending upon the type of inutility it represents. There are numerous methodologies and, as a general rule, common appraisal concepts and methods may be used to determine abnormal obsolescence. However, any method used must qualify and quantify any abnormal obsolescence claimed. The invention of newer, more productive personal property that produces a better quality item, utilizes state of the art technology, or produces more efficiently at a lower cost of production, does not cause an older, currently used asset to be considered abnormally obsolete **unless the change was unanticipated, unexpected, or could not have reasonably been foreseen by a prudent business person.** ~~If the asset is still capable of performing the function for which it was acquired, and is producing both on and before the assessment date, no abnormal obsolescence shall be allowed.~~

(b) An example of unforeseen change in market value (external obsolescence) is a government ban on the sale of a drug or chemical **that** may cause that item or the production equipment used to produce it to be abnormally obsolete. In this case, the equipment used to produce it may be eligible for abnormal obsolescence, while the inventory should be valued at the lower of cost or market as provided in this article and will not be entitled to abnormal obsolescence.

(c) An example of exceptional technological innovation (functional obsolescence) **would be compact disc (CD) technology. In this case, the equipment used to produce and play long play (LP) records may be eligible for abnormal obsolescence, while the inventory (LPs) should be valued at the lower of cost or market as provided in this article and will not be entitled to abnormal obsolescence.** ~~is Abnormal obsolescence due to exceptional technological innovation should be recognized to the extent that it causes the subject property to be incapable of use for current production or adaptation to a different use. A specific example would be compact disc (CD) technology. In this case, the equipment used to produce and play long play (LP) records may be eligible for abnormal obsolescence, while the inventory (LPs) should be valued at the lower of cost or market as provided in this article and will not be entitled to abnormal obsolescence.~~ (State Board of Tax Commissioners; 50 IAC 4.3-9-3)

50 IAC 4.3-9-4 Allowance of abnormal obsolescence claim

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 4. (a) Abnormal obsolescence should be recognized to the extent that the taxpayer can demonstrate that the property qualifies for abnormal obsolescence and can quantify the amount. This must be done through a presentation of the facts, circumstances, and methodology used in calculating the amount of the abnormal obsolescence.

(b) The adjustment for abnormal obsolescence must be computed in accordance with this article for each

respective item of personal property **or portion of a production process.**

(c) When the reporting requirements for an adjustment for abnormal obsolescence have been met (full disclosure), but the adjustment is not allowed or the amount of adjustment is changed, the amount not allowed is not subject to the undervaluation penalty set forth in this article. *(State Board of Tax Commissioners; 50 IAC 4.3-9-4)*

50 IAC 4.3-9-5 Limitation

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 5. The availability of abnormal obsolescence is limited to that which is not already reflected on the books and records of the taxpayer. *(State Board of Tax Commissioners; 50 IAC 4.3-9-5)*

50 IAC 4.3-9-6 Reporting of abnormal obsolescence

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 6. The taxpayer may claim an adjustment for abnormal obsolescence on the ~~form(s)~~ **appropriate forms prescribed in this article when filing the tax return for the year in question. The ~~adjustment(s)~~ **adjustment**, if requested, must specifically:**

- (1) identify all property for which an adjustment is requested;**
- (2) indicate the original cost of the property;**
- (3) indicate the true tax value of the property as if no adjustment would be allowed;**
- (4) indicate the true tax value of the property as a result of the requested adjustment; and**
- (5) provide sufficient detail in order to effectively qualify and quantify the claim.**

Rule 10. Interstate Carriers

50 IAC 4.3-10-1 Valuation of carriers' property

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 1. Commercial airlines and buslines are required to compute the true tax value of their fleets in accordance with the provisions of 50 IAC 4.3-4. However, if such property is leased, the true tax value is required to be computed in accordance with 50 IAC 4.3-8. The computed true tax value is further subject to allocation as provided in this rule. In either case, the taxpayer shall report the true tax value on the appropriate forms discussed in 50 IAC 4.3-2. *(State Board of Tax Commissioners; 50 IAC 4.3-10-1)*

50 IAC 4.3-10-2 Commercial airlines; allocation and true tax value

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31; IC 6-6-6.5

Sec. 2. (a) As used in this rule, "commercial airline" means an airline with regularly scheduled flights and routes authorized and approved by the federal aviation administration.

(b) The fleet of the commercial airline is aircraft that the taxpayer owns, holds, possesses, or controls that is used and operated in interstate commerce.

(c) Commercial airlines are required to report the total value and type of aircraft operating in this state.

(d) An allocation must be made for each type of aircraft operated. The allocation factor for each type of aircraft is computed by dividing the total ground time in the taxing district of each type of aircraft for the preceding twelve (12) months by the total ground time of each type of aircraft operated for the same period.

(e) The true tax value of each type of aircraft is determined by multiplying the percentages as computed in subsection (d) times the tentative true tax value of each type of aircraft computed in accordance with section 1 of this rule. (*State Board of Tax Commissioners; 50 IAC 4.3-10-2*)

50 IAC 4.3-10-3 Commercial busline; allocation and true tax value

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11; IC 6-1.1-31

Sec. 3. (a) As used in this rule, “commercial busline” means a company for hire that is principally engaged in the business of transporting persons by bus, and exclusively operates charter buses, which do not have scheduled routes.

(b) The fleet of the commercial busline includes the buses the taxpayer owns, holds, possesses, or controls that are used and operated in interstate commerce.

(c) Personal property required to be reported under this rule. The fleet of the commercial busline is required to be valued pursuant to section 1 of this rule.

(d) An allocation must be made for the fleet of buses operated. The allocation factor for the fleet is computed by dividing the total Indiana miles of the fleet for the preceding twelve (12) months by the total miles of the fleet for the same period.

(e) As an alternative to maintaining a mileage log of all trips, individual lessors, who do not maintain adequate records to compute their allocation factor, may use the same allocation factor as their lessee provided that the lessor’s property is predominantly leased to that lessee. The lessor must meet the predominant use requirement in order to use the lessee’s allocation factor. If the lessor does not meet the predominant use requirement, the lessor must use the actual allocation factor as determined in subsection (d). As used in this section, “predominant use” means:

- (1) during the course of the year, more than fifty percent (50%) of the total mileage logged by the lessor’s buses is logged by buses under lease to that lessee; or
- (2) during the course of the year, the leased property is leased to that lessee for more than one-half ($\frac{1}{2}$) the number of days in that year.

(f) The total true tax value of the fleet subject to assessment under this section is determined by multiplying the true tax value as determined in section 1 of this rule, by the allocation factor determined in subsection (d) or (e). (*State Board of Tax Commissioners; 50 IAC 4.3-10-3*)

50 IAC 4.3-10-4 Scope of rule

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 4. This section is applicable only to the aircraft of the commercial airlines and the buses of commercial buslines used and operated in interstate commerce. This section is not applicable to the other classes of personal property that the taxpayer may own, hold, possess, or control. The other classes of personal property must be reported and valued pursuant to the respective provisions of this article. (*State Board of Tax Commissioners; 50 IAC 4.3-10-4*)

Sec. 1. For information on exemptions see IC 6-1.1-10 and IC 6-1.1-11. (*State Board of Tax Commissioners; 50 IAC 4.3-11-1*)

50 IAC 4.3-11-2 Deductions

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11; IC 6-1.1-1-12; IC 6-1.1-31; IC 6-1.1-40; IC 6-1.1-42

Sec. 2. For information on deductions see IC 6-1.1-12, IC 6-1.1-40, and IC 6-1.1-42. (*State Board of Tax Commissioners; 50 IAC 4.3-11-2*)

Sec. 1. (a) In order for inventory to be exempt in Indiana, the property must first be reported and then claimed exempt annually on a timely filed business tangible personal property return. There are eight (8) sections within the statutes that contain the eligibility requirements for the exemption of goods considered to be in interstate commerce. These are summarized in the following table:

IC Site	Owned by	Origin of Goods	Stored in Warehouse	Additional Specific Requirements
IC 6-1.1-10-29(b) Subsection (b)	Manufacturer or processor ***	In-state	Public or private	1. See specific explanation of manufacturer or processor; 2. Stored and remains in original package without further processing; or 3. Consists of books or other printed material stored at in state commercial printers facility without further processing.
IC 6-1.1-10-29(b)	Manufacturer or processor ***	In-state	Public or private	1. Need not be stored in original package provided no additional manufacturing or processing except for packaging; and 2. Either, the property will be damaged or have its value impaired if it is stored in its original package; or the final packaging of finished inventory items is not practical until receipt of final customer order because fulfillment or the order requires accumulation of a number of distinct finished inventory items into a single shipping order.
IC 6-1.1-10-29.3	Resident or nonresident	Out-of-state	Public or private	Owner of possessor is able to show by adequate records that the: 1. Goods are stored in an in-state warehouse for the purpose of trans-shipment to an out- of-state destination; and 2. The goods are ready for transshipment without additional manufacturing or processing, except repackaging.
IC 6-1.1-10-30(b)(a) Subsection (a)	Nonresident	Out-of-state	Public or private	The owner is able to show by adequate records that the property has been shipped into this state and placed in its original package for transshipment to an out-of-state destination. The property remains in its original package.

IC 6-1.1-10-30(b) Subsection (b)	Resident or nonresident	In-state or out-of-state	Public or private	Property had been ordered prior to assessment date and is ready for shipment to a specific known out-of-state destination and is subsequently shipped. If property claimed exempt is not shipped to the specific known destination, the taxpayer shall file an amended personal property return for the year the exemption was claimed. Property is stored and remains in its original package.
IC 6-1.1-10-30(b)(c) Subsection (c)	Resident or nonresident	In-state	Public (only)	Property was shipped and remains in its original package in a public warehouse. Property was shipped to the warehouse by either a common, contract or private carrier. Property being held for transshipment to out-of-state destination and labeled to show that purpose. Owner must be able to show by adequate records that the property meets the above criteria. Also, taxpayer who possesses the personal property of others may claim an exemption provided the taxpayer has reported the property and the taxpayer can show the owner would have qualified for the exemption.
IC 6-1.1-10-30.5	Resident or nonresident	Out-of-state	Foreign trade zone	Personal property is exempt provided the property is held, on the assessment date, in a foreign trade zone established under 19 U.S.C. 81; and the property was either imported into the foreign trade zone from a foreign country or was placed in the foreign trade zone exclusively for export to a foreign country.
IC 6-1.1-10-40	Resident or nonresident	In-state or out-of-state	Facility approved by contract Market and Commodity Exchange Act	All the requirements for this exemption explained in IC 6-1.1-10-40.

***The manufacturer or processor that possesses personal property owned by another person may claim the exemption if:

- (1) The manufacturer or processor includes the property on the manufacturer's or processor's personal property return; and
- (2) The manufacturer or processor is able to show that the owner of the personal property would otherwise have qualified for an exemption under this section.

In addition to these interstate exemptions, several other exemptions, deductions, and credits are described in IC 6-1.1-10, IC 6-1.1-11, IC 6-1.1-12, IC 6-1.1-20.7, IC 6-1.1-20.8, and IC 6-1.1-40.

(b) Form 103-W has been prescribed by the state board as the form on which to claim an interstate or foreign trade zone inventory exemption. Form EZ1 has been prescribed as the form on which to claim an enterprise zone inventory credit, Form IR-1 for claiming an industrial recovery site inventory credit, and Form MOD-1 for claiming a maritime opportunity district inventory deduction.

(c) These exemptions, deductions, and credits will be permitted to taxpayers who timely file and show the amount of their claim for exemption on the proper line of the prescribed return forms, provided the taxpayer is able to document all of the evidence required, when required to do so by any assessing official or the state board.

(d) An exemption is a privilege which may be waived by a person who owns tangible property that would qualify for the exemption. If the owner does not comply with the statutory procedures for obtaining an exemption,

the owner waives the exemption. If the exemption is waived, the property is subject to taxation (IC 6-1.1-11-1).

50 IAC 4.3-12-2 Definitions

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-10; IC 6-1.1-11-1; IC 26-1-1-201

Sec. 2. The following definitions apply throughout this rule:

(1) “Adequate records” means the following:

(A) As used in IC 6-1.1-10-29, IC 6-1.1-10-29.3, IC 6-1.1-10-30(a), and IC 6-1.1-10-30(c), includes:

(i) a designation on:

(AA) a bill of lading;

(BB) a freight bill;

(CC) a delivery receipt;

(DD) a manifest;

(EE) a packing slip; or

(FF) an equivalent document; or

(ii) a final entry;

in the records of the taxpayer indicating that property is held for shipment to an out-of-state destination. Such a designation for out-of-state shipment is sufficient for purposes of IC 6-1.1-10-29, IC 6-1.1-10-29.3, IC 6-1.1-10-30(a), and IC 6-1.1-10-30(c), even though the specific out-of-state destination of the property is not included in the designation and even though the destination of the property is unknown on the assessment date.

(B) For the purpose of substantiating the amount of personal property that is exempt from property taxation under IC 6-1.1-10-29, IC 6-1.1-10-29.3, IC 6-1.1-10-30(a), and IC 6-1.1-10-30(c), a taxpayer shall maintain records that reflect the specific type and amount of personal property claimed to be exempt so that the taxpayer’s taxable personal property may be distinguished from its exempt personal property. In lieu of specific identification, the taxpayer may elect to establish the value of their exempt personal property by utilizing an allocation method whereby the exempt personal property is determined by dividing:

(i) the value of the taxpayer’s property shipped from the in-state warehouse to out-of-state destinations during the twelve (12) month period ending with the assessment date; by

(ii) the total value of all shipments of the taxpayer’s property from the in-state warehouse during the same period of time, and applying this ratio to the taxpayer’s total inventory of personal property that has been placed in the in-state warehouse, that is in the in-state warehouse as of the assessment date, and that meets the other requirements for an exemption under IC 6-1.1-10-29, IC 6-1.1-10-29.3, IC 6-1.1-10-30(a), or IC 6-1.1-10-30(c).

(C) If the taxpayer uses the allocation method, the taxpayer shall keep records which adequately establish the validity of the allocation.

(D) If the taxpayer elects to keep a specific inventory, the taxpayer shall maintain additional records that reflect:

(i) an accurate inventory of all personal property stored in an in-state warehouse, i.e., both inventory destined for points outside the state and inventory destined for points within the state;

(ii) the date of deposit of the inventory in the in-state warehouse;

(iii) the date of withdrawal of the inventory from the in-state warehouse; and

(iv) the point of ultimate destination of the shipments, if known.

For the purpose of this subdivision, “warehouse” means an area, enclosure, building, or public or private structure maintained for the storage of inventory or other tangible personal property. This includes a commercial printer’s facility.

(2) “Average inventory–inventory exemption” means if a taxpayer elects to report the calendar year average inventory and claim an interstate commerce exemption, the exemption must be computed for each month under the same subsection. The allowable exemption claim would then be the average of the amounts that would qualify at the end of each month.

(3) “Bill of lading” means a document evidencing the receipt of goods for shipment issued by a person engaged in the business of transporting or forwarding goods, and includes an air bill as defined in IC 26-1-1-201(6).

(4) “Manufacturer or processor” has the meaning as set forth in IC 6-1.1-10-29.

(5) “Nonresident” means a taxpayer who places property in the original package and into the stream of commerce from outside of Indiana. This relates to the location the property is placed into commerce and not to whether the company is based outside of Indiana. For example, if the goods are being shipped into Indiana from out-of-state, then the person would be considered a nonresident.

(6) “Original package” means the box, case, bale, skid, bundle, parcel, or aggregation thereof bound together and used by the seller, manufacturer, or packer for shipment.

(7) “Resident” means the opposite of a nonresident. If the goods are placed into the stream of commerce from within Indiana, the person would be considered a resident.

(State Board of Tax Commissioners; 50 IAC 4.3-12-2)

50 IAC 4.3-12-3 Government-owned inventory

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-10; IC 6-1.1-11-1; IC 26-1-1-201

Sec. 3. (a) Inventory that will qualify for exemption as government-owned property includes the following:

(1) Finished goods and work-in-process, title to which is held by the government, pursuant to the applicable contract or subcontract.

(2) Materials and supplies furnished by the government for use in performing the contract or subcontract.

(3) Raw materials and supplies allocated to a government contract or subcontract that vests title to the government.

(b) If the inventory is allocated to government contracts, the allocation must be substantiated by:

(1) purchase documents that assign the property to the government contract;

(2) transfer of the property from common or general stores to the specific contract by requisition, work order, or other accounting document; or

(3) any other method that indicates clearly and factually that the proper allocation to government contracts was made.

(c) In general, the following types of contracts and subcontracts have title clauses pursuant to which the government acquires ownership of inventory prior to acceptance of the finished goods:

(1) Fixed price type contracts or subcontracts with progress payments.

(2) Cost reimbursement type contracts or subcontracts.

(d) In any event, passage of title is governed by the terms of each individual contract.

(e) It is a requirement that the taxpayer first report all inventory (including government-owned) on the proper lines of the Form 103. The inventory deemed to qualify as government-owned is then exempted by filing the Form 103-W and reporting the total exempt inventory on the required line on Form 103. *(State Board of Tax Commissioners; 50 IAC 4.3-12-3)*

Rule 14. Prescribed Methods of Valuation; Specific Types of Property

50 IAC 4.3-14-1 Assessment of nonmotorized boats, recreational vehicles, pickup truck campers, snowmobiles, off-road vehicles, self-propelled motor homes, nonfactory produced units (homemade)

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31; IC 8-2-261; IC 14-16-1-3

Sec. 1. (a) Pursuant to 50 IAC 4.3-7, this rule is promulgated to instruct assessing officials and affected taxpayers in the proper procedure for determining the true tax value of types of personal property not used in business and nondepreciable (not allowable) for federal income tax purposes.

(b) The types of property to be valued under this rule will usually be owned by an individual not engaged in business and are reportable on Form 101. The assessor is required to verify the true tax value of such property as reported by the taxpayer.

(c) ~~The “Recreational Vehicle & Van Conversion Blue Book”, published by National Marketing Reports, is prescribed by the state board for valuing these types of property. The edition of this publication in effect on March 1 of the year in which the assessment is to be made is to be used.~~ **A taxpayer may report applicable values established by such nationally recognized publications as the “Recreational Vehicle & Van Conversion Blue Book”, published by National Marketing Reports, for valuing these types of property. Applicable values consistent with, or supported by, the data reflected in the edition of such a nationally recognized publication, that is in effect on March 1 of the year in which the assessment is made, will be deemed appropriate.**

(d) The “As is” value as listed in ~~this~~ **such a** publication shall be the basis for valuations. **If no “As is” value is listed, the retail or market value shall be used.**

(e) In the event a particular make or model is not included in the ~~“Recreational Vehicle & Van Conversion Blue Book”~~ **any such nationally recognized publication**, or on a list of unit valuations issued by the state board, such personal property shall be valued at its true tax value. The true tax value shall be the cost less a reasonable allowance for depreciation.

(f) All units that are owned, held, possessed, or controlled by a manufacturer or dealer of ~~this~~ **the** type of personal property **described in this section**, shall be valued as inventory pursuant 50 IAC 4.3-5.

(g) This section shall not be used for the valuation of units used in the ordinary operation of a trade or business. In such cases, units shall be valued under 50 IAC 4.3-4, and reported in the pools of Schedule A on Form 102 or Form 103.

(h) The only boats assessable on Form 101 are human powered boats. This includes rowboats, canoes, and other nonmotorized boats, excluding sailboats.

(i) Pertaining to the definitions set forth under IC 8-2-261 and IC 14-16-1-3, snowmobiles and off-road vehicles are subject to assessment as personal property on Form 101. The lack of a registration certificate does not render this type of personal property nonassessable. *(State Board of Tax Commissioners; 50 IAC 4.3-14-1)*

Rule 15. Severability

50 IAC 4.3-15-1 Severability

Authority: IC 6-1.1-31-1

SECTION 2. THE FOLLOWING ARE REPEALED: 50 IAC 4.2-1; 50 IAC 4.2-2; 50 IAC 4.2-3-1; 50 IAC 4.2-3-2; 50 IAC 4.2-3-3; 50 IAC 4.2-4; 50 IAC 4.2-5; 50 IAC 4.2-6; 50 IAC 4.2-8; 50 IAC 4.2-9; 50 IAC 4.2-10; 50 IAC 4.2-11; 50 IAC 4.2-12; 50 IAC 4.2-14; 50 IAC 4.2-15; 50 IAC 4.2-16.

SECTION 3. SECTION 2 of this document takes effect March 1, 2002.
